

The One Time Consultation with Armand DiMele

The one-time consultation is a unique, clarifying experience.

Armand is known as a master diagnostician. In his forty years of interviewing thousands of people, Armand has found the One-Time Consultation to be a great tool in helping him to help you as quickly and thoughtfully as possible.

There are certain steps required before a face-to-face meeting can take place and although it may seem like a lot, it really works in your favor.

Here are the steps to the consultation.

- Make an appointment. An initial inquiry into your issue will take place at the same time.
- Compose an email to Armand@thepositivemind.com describing your issue or problem in depth.
- When you arrive, you will register and complete a thinking style questionnaire.
- Next will be a face to face meeting with Armand.
- Recommendations for follow-up if and when indicated.
- E-mail/phone contact following the consultation.

Read what people had to say about consulting with Armand

“One consultation with Armand feels as if he has known you your entire life. He has such an extraordinary understanding of people that it is almost as if he has a sixth sense. He accomplishes more in one session than others accomplish in months of therapy. “
~Jeanette

“Armand in person was comforting and smooth. His way of engaging me was quite disarming and safe. I now see parts of me that were always in the background and are now in the front and forward more often. The greatest benefit from that session was that I found out that I had more friends in my life that I could share my inner self with then I had ever realized. I was the one all the time that kept me under wraps.”

-Rob

“I went to see Armand for a consultation last winter. I had his number for a while and kept procrastinating using it. Now, I am BEYOND grateful I took the plunge. Sitting with Armand was the first time I felt completely safe and secure to be me. Somewhere in the mix of life I had implanted outside

judgments and expectations within me and lived within their limitations. With Armand, all of that fell apart, piece by piece. I now speak more honestly and get the same in return. I don't take things as personally, I let the past be the past and look to what I want to create now, I ask for what I want unattached to the outcome, I love deeper, I accept more, I feel a greater sense of peace and overall trust."

-Tara

Armand changed my life-pure and simple. I became successful in my chosen field and able to love. Problems solved!

~ Margot
